Summary

MERN stack developer with 2 years of experience in building and deploying scalable and secure web applications for diverse industries. Skilled in JavaScript, MongoDB, Express, React, Node, RESTful APIs, GraphQL, and web3.js.

Experience

Iboss Technologies	2019 - 2021
Web Developer	Noida

Education

DIT University	2016-2018
7.3 CGPA	MCA

IMS Unison University	2013-2016
6.7 CGPA	BCA

Projects

Form Mapping	2020-2021
Lead Front End Developer	

- Designed/developed user interface of a web application that allows users to draw over PDF forms and calculate the coordinates.
- Connected to the service on the back-end using RESTful APIs and JavaScript to get data.
- Designed and implemented the dashboard for the Form Mapping.
- Improved the user interface and user experience of the dashboard, using responsive design and drag and drop functionality.
- Increased the accuracy and efficiency of the form mapping process by 35%.
- Enhanced the mobile compatibility and responsiveness of the web application, using HTML, CSS, and Bootstrap.

JavaScript, Fabricjs, HTML, CSS, Bootstrap, canvasjs.

Bot Builder	2019-2020
MERN Stack Developer	

- Created and optimized the dashboard for the Bot Builder, using React and Material UI.
- Implemented a drag and drop functionality to enable users to design the chatbot flow, using canvasjs.
- Contributed to the development of a web application that scans invoices and extracts information
- Utilized RESTful APIs in JavaScript to send and receive data from the back-end service.
- Added functionality to draw Text Box over the invoices and calculate the coordinates, using canvasjs.
- Transmitted the coordinates of the drawn rectangle to the service for further processing.
- Increased the user engagement and retention rate by 35%, using user interface design and user experience testing techniques.

Javascript, MERN, HTML, CSS, Bootstrap, canvasjs., MaterialUI

Astroask

Freelancing

- Designed, developed, and maintained a full-stack web application that connects users with astrologers, using MERN stack and GraphQL.
- Created and tested RESTful APIs in Node / Express to handle data queries and mutations.
- Secured the web application with auth 2.0 for authentication and authorization.
- Incorporated third party APIs for enabling voice and video calling between users and astrologers.
- Produced and refined the Dashboard using React and Bootstrap.

MERN, JavaScript, Payment Gateway, REST API, GraphQL

Skills

Technical skills

JavaScript (advanced), HTML (intermediate), CSS (intermediate), Bootstrap (intermediate), MERN Stack (advanced), GraphQL (intermediate), RESTful API (intermediate)

Tools

Fabricjs (intermediate), canvas js (intermediate), Git (advanced), Jira (intermediate), Material UI (beginner)

Soft Skill

Analytical and problem-solving skills (expert), Communication and collaboration skills (intermediate), Adaptability and learning skills (advanced)
